## Dishmachine Temperature Log

Week of: \_\_\_\_\_

	Wash Temperature	Final Rinse Temperature	Date	Time	Initials	Corrective Action
<b>Monday</b>						
<b>Tuesday</b>						
<b>Wednesday</b>						
<b>Thursday</b>						
<b>Friday</b>						
<b>Saturday</b>						
<b>Sunday</b>						

Manager's Signature: \_\_\_\_\_

Date Verified: \_\_\_\_\_

**Standard:**  
 Determine your machine's target wash and final rinse temperatures from the data plate on the machine *OR* check your *Quality Assurance Standards Manual* (Write in at bottom of page).

**Corrective Action:**  
 "A" = Turn on booster heater.  
 "B" = Notify manager if temperatures do not meet standards (*below*).
